

What is Panthers Care?

Panthers Care was started in 2017 in an effort to increase team participation in local VEX (VRC) tournaments. Being part of VEX is more than just winning trophies, it's about giving back to the community, and helping the world of robotics flourish. We hope that Panthers Care can help us achieve that goal.

How does it work?

Teams apply [HERE](#). Once accepted, Panther Robotics will add your team to the event at RobotEvents.com. Teams then pay their registration fees (\$85), and as long as they participate in the event, they are either given \$125 Gift Certificate towards VEX Parts (Vexrobotics.com or Visual Edge) OR are given refund of registration fees (check from Park Tudor School).

Why do I have to pay?

Teams that pay are more likely to follow through with attending the event than those who do not have a financial investment. In addition, we want our event to be as full as possible.

Where did the funds for this come from?

Panther Robotics is always looking for sponsors and this year we are excited to have [Video Game Palooza](#) join us. Part of the money they donated has been set aside to pilot this program.

How many teams can participate?

We hope to have between 5-10 teams per tournament take advantage of this offer.

Any other reasons to participate?

Free T-Shirt & Lunch. We often hear that some teams have team members that can't afford lunch, so we will provide up to 4 team members lunch and t-shirts. Note: Not all teams will qualify for free lunches.

Want to help give back?

Teams interested sponsoring a team or two are welcome to join us. Contact admin@pantherrobotics.org to find out more.
