

Dear REC Foundation Aerial Drone Competition Teams,

As the Dean of Science & Aeronautics at Tulsa Community College, I am pleased to extend a warm invitation to all drone competition teams joining us in Tulsa on April 19th and 20th.

Tulsa, known for its rich aviation history and dynamic community, offers a welcoming environment for participants and spectators alike. Whether you are exploring the iconic landmarks along the Arkansas River or savoring the renowned local cuisine, there is something for everyone to enjoy in our city.

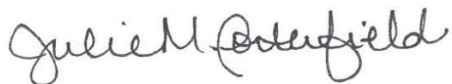

We are committed to ensuring that your experience in Tulsa is both enjoyable and memorable. Our dedicated team is prepared to assist you with any inquiries or logistical arrangements to facilitate your stay during the competition.

Our campus provides an exceptional venue equipped with state-of-the-art facilities and ample space to accommodate the diverse needs of the competition. Please be advised that due to space constraints at our airport facility we will have 80 available parking spots on Friday, April 19th and therefore will be limiting the number of team vehicles to 2 vehicles per team. On Saturday, we've coordinated with the business to the south to provide overflow parking options for your convenience. We are arranging to have a shuttle service for those with limited mobility.

We eagerly anticipate your presence at the REC Foundation Drone Aerial Drone Competition. Get ready to show off your communication, teamwork, and piloting skills! We can't wait to see you here.

Should you have any questions or require further information, please do not hesitate to contact us at 918-595-3717 or aviationcenter@tulsacc.edu.

Warm regards,

Julie M. Porterfield

Dean of Science & Aeronautics

Tulsa Community College
