## VIQRC 2023-2024: Full Volume

Tagged: T8

Welcome to the official VEX IQ Robotics Competition Question & Answer system, where all registered teams have the opportunity to ask for official rules interpretations and clarifications. This Q&A system is the only source for official VIQRC **Full Volume** rules clarifications, and the clarifications made here from the Game Design Committee (GDC) are considered as official and binding as the written [Game Manual](#) itself.

Please review the [Q&A Usage Guidelines](#) before posting. This system is only intended for specific VIQRC Full Volume rules questions.

- For event, registration, or other competition support questions, please contact your [REC Foundation Manager](#).

### 1742: Accidentally Knocking Off Red Block

2-Nov-2023

G10 T8

According to the rules, a red block is considered scored if it is removed from the starting peg at the end of the match.

Removed – A red Block status. A red Block is considered Removed if it is no longer fully supported by a Starting Peg at the end of the Match.

What should be the result of a red block being accidentally knocked off the starting peg, either by a student interacting with their robot as allowed by [<G10>](#) or by bumping the edge of the field?

This should obviously be a DQ for the team that caused the red block to be removed. But based on [<QA1697>](#) it seems like the non-offending team should still get the points for the red block being removed. Is that the correct resolution?

#### Answered by committee

You are correct. If a Driver accidentally knocks a red Block off of its starting peg while interacting with the Robot or the Field, it should be handled as a Score Affecting Violation of rule [<G9>](#) and the Team should receive a Major Violation and Disqualification for the Match.

If the Disqualification occurs in a Qualifying Match, their Alliance Partner should receive the points for the red Block being removed. If the Disqualification occurs in a Finals Match, both Teams in the Alliance will be Disqualified as described in rule [<T8>](#).
