

## Robot License Plate Template

At VEX Robotics Competition events, robots must display license plates with the team number on two opposing sides. Two robot license plates are included in the Welcome Kit sent to teams with \$100 paid team registration fees. License plates can also be ordered from VEX Robotics:

<http://www.vexrobotics.com/vexedr/products/view-all/276-3938.html>.

Use the following template for robots that require license plates to pass robot inspection at an event.
